

“THIS IS ALWAYS THE FIRST EXTERNAL VISIT THAT I PUT INTO THE CALENDAR EVERY YEAR IT IS SUCH A WORTHY CAUSE”

Cameron Bowie Director of Post 16 – West Bridgford School

“YOUR PRESENTATION HAD A VERY POWERFUL MESSAGE WHICH DEFINITELY STRUCK A CHORD WITH THE STAFF & STUDENTS PRESENT”

Chris Hawkins Head of Year – Stamford High School

Register & Be a Lifesaver (R&Be) is an education programme run by **ASSET** (Adrian Sudbury Schools' Education Trust) in partnership with NHS Blood and Transplant

R&BE
REGISTER & BE
A LIFESAVER

LET US INTRODUCE OURSELVES

We educate 16-18-year-olds about stem cell, blood and organ donation. Our trained volunteers deliver 30-50 minute presentations in sixth forms and colleges across the country, encouraging students to become active citizens and save lives.

Since 2009, we've delivered over 4,000 presentations, resulting in over 14,000 registered blood donors, 22,000 new recruits to Anthony Nolan's stem cell register, and 7,000 new potential organ donors.

And we'd be delighted to visit your school, too.

Get in touch

If you'd like us to visit your school or college, contact us now at keith.sudbury@asset.uk.com or call **07947 591381**

Why is R&Be brilliant?

- R&Be is an engaging addition to other classes, bringing PSHE, citizenship and science to life
- We debunk myths and help students make well-informed decisions about donation
- We educate students about active citizenship and how they can help others
